Judge Thompson Gave Fine Address To Graduates

COMMENCEMENT EXERCISES OF THE HIGH SCHOOL MARKED BY GRADUATION OF FIFTEEN STUDENTS, TWO OF WHOM GAVE SPLENDID TALKS ON TIMELY TOPIC

The twenty-seventh annual commencement exercises of the Sonoma Valley Union High School was the big event of last week, fifteen graduates receiving diplomas before an audience of relatives and friends which taxed the grammar school auditorium far beyond its seating capacity. Judge Rolfe Thompson of Santa Rosa delivered the commencement address and it was a masterly one, in the brilliant and entertaining oratorical style for which the gifted jurist is famous.

The fair girl graduates, gowned in their simple but beautiful organdie dresses of all the latest shades, looked charming. Marguerite Helberg, in pale pink; Mildred Erickson in pale green; Flora Trautvetter, in apricot: Nancy Griffith, in honeydew: Annalou Dresel, in tomato; Helen Steiman, in yellow; Angela Marmori, in watermelon; Celia Thomson, in jade; Louise Cannobio, in orange.

Surrounded by their fellow-graduates, the speakers, divines, Principal L. H. Golton, and with the rostrum heaped high with flowers, the picture was typically an ideal graduation scene.

Rev. J. F. Byrne opened the exercises with an appropriate invocation.

Miss Nancy Griffith, the salutatorian, gave an excellent talk on "The School of Yesterday," showing how it failed to fulfill its purpose in the community and lacked in the necessary qualities of a healthy environment for the students. She painted a vivid picture of Sonoma's passe school and told of its poor ventilation, light, sanitation and comfort, all defeating the purpose of the modern endeavor to give the youth of the land the opportunities which education should provide. Her earnest and charming manner and excellent argument called forth great applause at the conclusion of her address.

Miss Marguerite Helberg gave a long and fine talk on "The School of Tomorrow.' She was valedictorian of the class and proved her claim to it through the well-worded, splendidly delivered argumentative discourse on the new school and what it would mean to the community and its youth. She concluded amid prolonged applause.

Judge Thompson's discourse had for its theme the strong thought of service for mankind as the end of all real education. He pointed out that schooling prepared for the great competitive battle in the world, that it taught youth how to apply natural gifts and to make the best choice at crucial times. He decried the accumulation of money as the only purpose of men and declared they must be useful to humanity or they had failed of life's highest purpose.

He praised the great institution of the public school and gave figures to show its vastness in the country and the great growth which was now causing the insufficiency of school plants to care for the millions being educated. The great democratic equality of opportunity offered by the public school made it worthy, said the speaker, of the unlimited backing of the people throughout America. He closed with a wonderful tribute to Abraham Lincoln, holding him up as the example of our greatest American for his manhood and stalwart character.

Prof. L. H. Golton talked in behalf of the new high school.

Diplomas were conferred by Trustee Geo. Cassidy. Rev. Isaac Cookman gave the benediction.

The graduates were as follows: Marguerite Helberg, Nancy Griffith, Annalou Dresel, Celia Thomson, Angela Marmori, Flora Trautvetter, Louise Cannobio, Helen Steiman, Mildred Erickson, James Cameron, Victor Clements, Harry Burmester, Tom Palmer, Fred Schell, Haster Ring.

"Jackass" and Old Sol Make Two Insane

A San Franciscan was taken from the N. W. P. train this week on account of his violence and queer conduct after leaving Sausalito. A bottle of "jackass" was discovered in his grip and is thought to account for his capers. Constable Murray locked him up pending investigation.

Andrew Kapaslin, an Oakland candy maker, engaged a room on Broadway this week and the terrified landlady finally realized that her lodger had gone stark crazy from the unusual hot weather and had climbed on the roof sans his clothes. He was taken into custody.

Social Afternoon at Woman's Club

The Sonoma Valley Woman's Club held an interesting meeting Friday of last week. A card party for the plaza fund, inaugurated by the Sonoma Business Men's Association, was decided upon for Friday night, the 24th inst.

Mrs. Perle Hunter, who represented the club at the county convention at Cloverdale, gave an interesting report of the proceedings.

Mrs. B. F. Campbell was in charge of the program for the afternoon and her paper on a recent trip to Hawaii was read by Miss Meta Stofen. Mrs. Walter Murphy and Mrs. Ralph Hotz gave some Hawaiian music during the tea hour.

SONOMA VALLEY HIGH SCHOOL REPRESENTATIVE OF ENTIRE VALLEY

Few people realize how truly representative Sonoma Valley Union High School really is. A study of the attendance for the current year will be an eye-opener to some people.

Less than one-fourth of the attendance comes from within the city limits of Sonoma. Of the total enrollment of 102, about TWO-THIRDS comes from the SOUTHERN HALF of Sonoma valley, and ONE-THIRD from the NORTHERN HALF.

The assessed valuation of the property in the SOUTHERN HALF of the Sonoma Valley Union High School District is $2,300,000; in the NORTHERN HALF, $1,300,000.

The enrollment is as follows:

Sonoma, inside	24
Sonoma, outside	10
Vineburg and Buena Vista	22
Schellville	10
Watmaugh	6
El Verano	16
Agua Caliente	11
Glen Ellen	3
Total	102

The trustees have been rapidly increasing the facilities for bringing students to high school at a proportionately lower cost to the parents. Last year the school spent $1300 for transportation. It paid for the operation of five busses distributed as follows:

Two in El Verano.
Two in Agua Caliente and Glen Ellen.
One in Schellville and Tule Vista.

Next year this service will be increased, one bus being added to serve Watmaugh, one in Vineburg.

The course of study has been growing richer and more serviceable.

The practical courses offered are:

SEWING
MILLINERY
COOKING
MANUAL TRAINING
BLACKSMITHING
MECHANICAL DRAWING
BOOKKEEPING
TYPING
ARITHMETIC
STENOGRAPHY
BUSINESS LETTERS
HORTICULTURE
ANIMAL HUSBANDRY

The following work in the academic branches is offered:

ENGLISH
MATHEMATICS
HISTORY AND CIVICS
LATIN
SPANISH
CHEMISTRY, PHYSICS and BIOLOGY
ECONOMICS AND SOCIAL SCIENCE
GRAPHIC ART

Where the limitations of the plant permit, the school has established some record work. The first year stenography students accomplished 125 words per minute. In typing, records were splendid. In bookkeeping, twice as much work was covered this year than in any other year in the past five. The sewing class was as good as any in the state.

Unfortunately, whereas the foundations of all modern professions are built on science, the science end and agricultural work in the schools have been badly handicapped. The space and equipment are lacking. There are no adequate laboratories.

While it is apparent to every voter, that large, material benefits will accrue to Sonoma in building a new high school building, yet, since more than three-fourths of the attendance comes from without the city limits of Sonoma, it is apparent to every one that the school itself renders three times the service to the valley than to the town. The educational benefits are to the entire valley.

Out of the five members of the Board of Trustees, one only lives in Sonoma: one in San Luis District; one in Schellville; one in Agua Caliente and one in Dunbar.

GRAMMAR SCHOOL GRADUATES LARGE CLASS

Splendid Exercises Include Address by A. C. Olney, State Commissioner of Secondary Schools.

The Sonoma Grammar School graduated one of the largest classes in its history on Thursday evening, and the auditorium was the scene of as fine exercises as any community in the state can boast of. A large and attentive audience greeted the graduates, speakers and trustees and gave enthusiastic evidence of their enjoyment of the splendid program presented.

After a selection by the Knolle-Pauli orchestra, Principal J. F. Prestwood presented Norman Heggie of the class of 1921, who proved a clever and witty historian. His paper was brimful of kindly humor and repartee on the foibles and virtues of his classmates. In conclusion he thanked those who have made education in the new grammar school possible and urged that as much be done for the Sonoma boys and girls of high school age.

A piano trio by Misses Barr, Nardi and Cecil Hunter followed. Miss Vesta Prestwood recited a long and beautiful poem. The Misses Schultz, nieces of Walter Carter, gave two delightful duets on the saxophone and piano. Grace Barr rendered a humorous dialogue, displaying decided talent for elocution. Walter Carter read a paper on "California" and Trustee Dresel talked of the forthcoming necessity for more land and additions to Sonoma's grammar school. Mr. Dresel introduced the speaker of the evening, A. C. Olney, State Commissioner of Secondary Education, from Sacramento. Mr. Olney was no stranger to many in the audience, and all who had the pleasure of listening to his enlightening discourse on the modern trend and aim of education were convinced that the State of California is fortunate in having such a high type man supervising the high schools of the state. Mr. Olney is the true idealist and educator and little of the politician.

In his talk he gave statistics justifying the course of physical education now so strongly urged and required in the high schools. He reminded his audience of the revelation of physical inefficiency gleaned from recent army records, where 35 per cent of our young men of draft age were declared physically unfit, and told of the physical defects in babies, which were also receiving the attention of science for the betterment of the race. The junior high school and its object was also explained by the speaker, who stressed the modern objective for vocational training for twentieth century young people, and in a homely simile contrasted the obsolete method of educating all alike and the modern system of determining the tendency and fitness of the pupil for individual initiative.

Mr. Olney congratulated Sonoma on its campaign for a new high school building and declared there was a very epidemic of high school improvement throughout the state. He told of Salinas and its new $400,000 high school and the city of Fresno, which had expended $1,000,000.

He pointed out the disadvantages and loss due to crowded and insufficient quarters and encouraged Sonoma, now that it is to have increased appropriation from the state figuring something like $4000 the coming year, to keep pace with progress and vote the bonds.

Dr. A. M. Thomson presented the diplomas to the class, after which the young graduates were fairly avalanched with flowers and showered with gifts from friends and parents. It was a gala graduation night.

Following are the names of the graduates: Albert Seehuber, Harold Boyd, Albina Nardi, Lucilla Sorini, Elizabeth Lewis, Hazel McCosker, Louise Larsen, Grace Barr, Robert Bianchini, Walter Carter(Alice Pellissier, Vesta Prestwood, Evelyn Peterson, Whit Whitmore, Cecil Hunter, Mike Kiser, Norman Heggie, Paul Robin, Mary Kiser, Andrew Anderson and Herbert Tracy.

In addition to the above class three pupils were passed into high school the first of January: Charlie Dieboldt, Samuel Steinman and Teddy Moscowite.

Oil And Golf in Competition For Sonoma Valley Acreage

OIL BOOM AND CONTEMPLATED VALLEY OF THE MOON GOLF LINKS CAUSE OF SHARP DEMAND FOR SAME PROPERTIES. WATTRISS AND SERRES SIGN UP ADDITIONAL 300-ACRE LEASE TO OIL MEN

A novel situation has developed in the present boom which Sonoma valley is enjoying, for in the Agua Caliente section owners of fine tracts and ranches find that oil men and golf promoters have set their hearts on identical properties. Wattriss and Serres found that the contour and scene beauty of their ranch had made a decided appeal to President McKenzie of the California Golf Association, and to the builder of Beverly Hills and other noted links. At the same time Messrs. Martin and La Peer, the oil speculators, impressed with the reports of experts and geologists on the oil indications at Agua Caliente, produced a lease whereby they promised to begin operations for oil within sixty days, to finance the project from start to finish and to give a one-eighth interest to Wattriss and Serres if they struck it. The owners, who have known for a long time of the fine oil prospects in the vicinity and had been working on the development of their indications, decided to accept Martin and La Peer's terms and signed up for 300 acres. The oil men also signed up Mrs. Richards of Agua Caliente, where there was a decided boom and some work done in developing prospects a number of years ago. They negotiated, too, with Frank Weaver, J K. Bigelow and G. Merz, on all of whose property they believed there are possibilities of striking oil.

Saturday night last, with additional data and reports in, La Peer and Martin returned to the Wattriss ranch and another lease was signed, whereby Wattriss and Serres are to get a quarter interest in the additional 300 acres to be tested.

By a strange coincidence the golf promoters who had been active in the vicinity, not only fancied the Wattriss ranch but also the Bigelow place as a site for the club house and links for the Valley of the Moon Golf Club. Negotiations were opened up by R. G. Lichtenberg of Boyes Springs with Bigelow and he was able to get the promise of the residence and grounds for the golf club under a rental of $3000 per year. Pending the oil development work, Bigelow refused to state his selling price.

The oil indications in and around Agua Caliente and Kenwood are certainly encouraging and derricks and other machinery are now on the way here from Bakersfield with which to begin operations.

Oil indications were first noticed on the Wattriss ranch over a year ago, when well drillers' tools came up coated with a substance resembling crude petroleum. The oil well on the Richards property gave encouraging signs a number of years ago after limited operations, due to the lack of capital for its development.

Oil is being sought on the Petaluma side of the mountains also.

NARROWLY ESCAPED DEATH NEAR SPRECKELS RANCH

J. A. McConnell Struck by Auto and Dragged Along the Road.

Last Sunday, while out motoring with relatives, J. A. McConnell, a summer visitor, stopped at the side of the road near the Spreckels ranch to make repairs to his car and was struck by a passing car and badly injured. McConnell managed to hold on to the fender, but was dragged a long ways before the car was stopped, and he was not only frightfully bruised but his clothes were almost torn off him. The accident was witnessed by Mr. Fisher, the Sonoma plumber, who had stopped to give a tow to McConnell, who wanted to get to Sonoma Vista with his disabled car. The men were standing on the side of the road, the wheels of their cars in the grass. Without warning the motorist whose car struck McConnell bumped into the Fisher car, almost causing it to go over the embankment with its occupants. The next thing Fisher knew he saw McConnell being dragged by the car which had struck his machine.

He ran to the aid of the victim of the accident and took the name and number of the offending motorist, who offered to pay for McConnell torn clothes. He gave the name of Sando and said he was from Napa.

The victim of the accident was brought to Dr Thomson's office, where his injuries and contusions were treated.

A warrant has been sworn out for the Napa motorist on a charge of reckless driving.

McConnell is a station agent for the S. P. up north and had come to the Valley of the Moon for his vacation. He will be laid up as a result of the accident for some time.

Mrs. Mae Chase was a guest at Hotel Sutter while in San Francisco.

AMERICAN LEGION BENEFIT NIGHT

The local Valley of the Moon Post No. 120 has completed all details for its big benefit which will be at Boyes Springs next Wednesday night. As usual a large crowd will be present, as the affair has been given publicity through the various legion posts throughout the county as well as all through the valley.

Jack London's exciting story, "The Mutiny of the Elsinore," will be the screen attraction, in connection with some excellent vaudeville numbers, which include a novelty dance by Miss Tamara Lawb, the clever Russian ballet dancer, and some of her pupils, vocal selections by Miss Dunnigan, popular songs by Henry Weber Jr. and others. Those who have not already purchased their tickets should do so and be at Boyes Springs early, as the program commences at 8:30 o'clock sharp. Dancing to Wilson's jazz orchestra will complete the evening's program. Go and help the boys who helped you.

Miss Constance Power, talented young daughter of Mr. and Mrs. Maurice Power, formerly of this place but now of San Francisco was presented with a certificate conferring the first degree for music from the Arrillaga Cllege Thursday night of last week. The charming girl is making splendid progress in her musical studies and gives great promise of being an exceptionally fine pianist.

Chas. Foley has disposed of his hotel business at Glen Ellen to Pat McMullin, former Berkeley grocery man. Mr. McMullin has already taken over the Chauvet lease and has arrived with his family from the college town.

A Splendid Selection

The naming of Rudolph Lichtenberg on the board of directors of the Golden Gate Ferry Company gives Sonoma county splendid representation on the board, as Mr. Lichtenberg is not only heavily interested here but is a young man of exceptional business ability and will give his conscientous attention to the furthering of the big project.

Sonoma county now leads in the subscription to the stock in this gilt-edge, clean investment which means so much to the future development of the north of bay counties.

E. C. Easton of the Easton Home Gas Making Machine Company, Petaluma, was in Sonoma Friday arranging for an agency for this wonderful invention, which furnishes gas for every purpose in the home and is a cheap and perfectly safe fuel. Many Petalumans have installed it, including the fire chief there and a former representative of the Pacific Gas and Electric company. Mr. Easton will shortly demonstrate the gas machine here.

Concert Today at Boyes Springs

This afternoon St. Vincent's boys' band of 35 pieces will give a concert at Boyes Springs bath house. There will also be high diving and swimming stunts by San Francisco athletes. It is San Francis parish tag day.

Mrs. R. A. Klassen and daughter, of Daly City, Calif., Mr. and Mrs. Cullinane and son and daughter and Mrs. Owens, of San Francisco, are guests at the Blue Bird Farm, El Verano.

Mr. and Mrs. Dave Eraldi are the proud parents of their first baby boy, born in San Francisco. The young haberdasher is a regular fellow, so Dave says, and he is already planning the firm of Eraldi & Son.

LUKE-WARM FARMERS AND RED-HOT TAX-PAYERS

THE QUESTION of retaining and maintaining the scientific agricultural advice inaguated by the County of Sonoma and in effect for some time past, has been the big local question of recent weeks. To the observer it was evident from the start that the question all hinged on whether the farmers were taking enough advice and enough interest in the scientific fine points of farming to justify the bureau and its charge against themselves and other tax-payers. The expense of the Farm Bureau was not a large one, but to maintain it for show or as the fad of some enthusiastic promoters was plainly economic nonsense. Tax-payers wax red hot when talking taxes and insist vehemently that non-essentials be cut out by the supervisors. With tax payers red hot and farmers only luke-warm toward the bureau and its opportunities, the supervisors rightly brought the matter to a climax. Reports from all over the county indicate that the farmers have been indifferent to the modern scientific program. Here in Sonoma valley a membership drive brought in many members, but they were members in name only. Meetings dwindled in attendance and excellent talks and instructive lessons lacked auditors.

It is a magnificent thing to give farmers the benefit of scientific investigation and study, but you cannot inoculate them with the germ of scientific progress. They must voluntarily seek out and follow up knowledge applicable to their problems on the farm. It is a splendid thing to have a state and national agricultural college and experimental farms, such as we have at Davis, where farmers can go for information and advice, but to set up a county bureau in a county where it is not functioning for lack of proper interest in it is folly.

Compulsory education for children is possible, but any time you try to apply it to farmers they will tell you where to head in, and rightly so. The successful farmer is not an accidental success, and many a successful farmer did not have a county farm bureau to direct his activities on the farm. However, if he spoke the truth, he will recall that he has been a farm adviser all his life, passing out his experience and knowledge, not scientifically correlated perhaps, but carefully deducted, to his less successful neighbor.

The supervisors, in putting on the brakes last week, may make our farmers realize the real value of the opportunities which the farm bureau has been offering and the raising of the financial balance necessary to maintain the farm adviser, may henceforth prove a real stimulus to scientific farming in Sonoma county.

HERE IS A CLERGYMAN WHO TALKS SENSE

PROBABLY President Harding did not realize that he was to "start something" when he refused to golf on Sunday. Who knows that it might not have been the golf but the language of golf which the chief national executive thought best to cut out on the Sabbath. Whatever the President's real views, there is one San Francisco clergyman at least who talked sense when asked to give his opinion of Sunday and its observance. He is Rev. Joseph McQuaide, widely known in army circles and a proven American. Here is what he says:

> The Sabbath was made for man and not man for the Sabbath. They are going altogether too far in this country in endeavoring to restrict man's enjoyment of the great outdoors on Sunday. A man can be true to his God and still love the great outdoors, the green fields, the woods, the streams, the parks with their flowers and the athletic fields I have always been in favor of Sunday baseball, golf and kindred sports. There is no harm in this clean way of spending Sunday. Such life in the great outdoors after a week of toil makes a man better fit for work, happier and more content with himself his family and in his love for God. I am opposed to any laws which will restrict man's freedom on Sunday.

THE STATE Highway Commission will let a contract for ten miles of paving on the Black Point cut-off (cut-off is right) and the jumping off place is said to be Fairville. Some tactics, gentlemen, making it so that another bond election will be necessary before we get satisfactory connections. The Valley of the Moon wants to be connected. We have been cut off enough and we are cut up about it, too!

THE VALLEY of the Moon Chamber of Commerce is getting a line on real problems, which they hope to solve for the community. The garbage problem is the latest and one in which every householder is interested. Join the chamber of commerce and help thresh out this question, so important to our fast growing valley.

COST OF BUILDING MATERIAL AND THE NEW HIGH SCHOOL

(Communicated).

There are those who declare that Sonoma valley ought not to build a high school now but should wait. When you ask them why, they answer that it will cost more now than later. They make this statement not from any knowledge of future conditions, for no one knows or can presage what is ahead in the cost line. The following facts and figures are worthy of attention by those who imagine it would be better to wait than to vote a new high school now.

Since the peak of high prices hardwood lumber has dropped 60 per cent, lumber at least 40 per cent, hardware 50 per cent. Cement did not go up, as other materials did. There has been little difference in the price of cement throughout all the general inflation. Ask any contractor—he will affirm this statement. As to labor conditions, skilled labor, after a stormy oposition, has accepted a cut of 7½ per cent. If the general depression continues materials may come down further, due to a general cut in wages or the cost of production. What, however, will be gained if the general level of wages and prices drop due to a cessation of industry? The farmer, who is the principal tax-payer on the high school project, will find it harder to pay taxes with the market depressed than if it were active or normal.

With the revival of industry, labor and material will again take an upward trend, for there has been almost a cessation of building for several years past, and within five years the pendulum will swing the other way. The amount to be saved by the taxpayers of Sonoma valley by waiting to build a new high school, for which there is a crying need, is indeed questionable.

The distinct loss the community will suffer while pursuing this fallacious policy of watchful waiting is unquestionable.

Sonoma valley cannot hope to attract homeseekers having children of high school age with a makeshift building when 12 or 15 miles away there are communities offering high class, modern educational opportunities and distinct advantages. To hire brains and retain a corps of university graduates to teach our youth and then house them in limited quarters and curtail their possibilities is in itself mighty poor business. The farmer uses better judgment with his stock on the farm and the poultryman is showing his judgment in properly housing his poultry every day, because he knows any other course is financial folly. Let us at least use as good judgment in caring for our boys and girls and properly housing them. Of course we can go on continuing the policy of sinking more money in the old building, but it will be a costly process and only be deferring the time when we will see the folly of our ways and decide to build just such a building as we can now authorize by voting the bonds on July 5th.

A wooden building to take care of the departments now in urgent need of more room will cost about $15,000. A heating system, which we must have, will cost $3000, repairs will amount to more than $2000. Twenty thousand dollars for temporary relief! Where is the economy? For every pupil we do not get to attend the high school there will be a loss of $100, for that is what the state allows for pupils in average daily attendance It is a safe bet that we will thus lose $2500 to $3000 by not having adequate facilities to compete with other communities. There will be an actual loss of about 25 per cent due to lack of space and equipment to properly carry on the work of the school. Inefficiency will cost us not a cent less than $3500 annually. In other words, give the teachers proper equipment and they will give you that much more for your money.

The modern high school will actually pay dividends to the Valley of the Moon. Think of the results in prbportion to the extra it wil cost the tax-payers. The general resultant prosperity will be worth every cent of interest put out.

If you own $1000 worth of property the new building's cost to you will be just $1.20 more during the next year or two than the special district tax you have been paying to keep up and improve the old building.

Thse proposed new building is known as the permanent 100-year type and can accommodate just twice as many pupils as the present one. With 300 high school students, Sonoma valley will have grown so that every farmer and business man can afford to carry the high school indebtedness and be glad that he incurred it.

Tax-payers, consider the cost of the temporary plant, the loss to the community if we wait, the postponement of the prosperity that should be ours, the folly of watchful waiting.

Follow up the Fourth of July and show that you are true Americans. Get behind the greatest of American institutions — our public schools— by voting bonds on July 5th for the high school building which will prove the watch tower of progress and the forerunner of a new era in our beautiful home valley.

Improvements Continue

Messrs. Muller and Downey have just completed the interior repainting and refinishig of the Tony Cereghino home, the former Haven place. The painters have also been busy at the Henry Bates ranch and on the interior work at McGill's gas station, Schellville.

In Honor of Alice Young

A dance will be given in the Watmaugh school house on July 2nd in honor of Miss Alice Young, who, after vacation, takes a position in the Sonoma grammar school During the four years of her teaching in the Watmaugh school Miss Young has endeared herself not only to the pupils but parents as well. All friends are cordially invited to be present on this occasion. Refreshments and good music.

Over 60,000 Names Filed Against the Wright Bill

H. F. Stoll, secretary of the California Grape Protective Association, announces that over 60,000 names have been filed in the referendum against enforcement of the Wright prohibition enforcement act passed by the recent legislature. "As a result of our campaign the Wright act will not become effective on July 28, but will be held up until November, 1922, when the electors of the state will have another chance to reject or approve state prohibition enforcement."

JIM WALLS WELL KNOWN HERE, MEETS WITH ACCIDENT

James A. Walls, well known rancher and owner of the Walls ranch at the Haystacks, below town, was run down by an automobile Wednesday of last week and serious ly injured. He is confined to his home and under the care of Dr. Al Anderson.

Mr. Walls, who has the haying crew at work on his large ranch, was returning from the fields and leading two horses along the highway near a bend on the road, just below his home, when two machines met, and one, in an attempt to avoid a collision with the other crashed into Walls. He was struck by the bumper and thrown against the engine, but held onto his horses, which became frightened and pulled him down the road along the concrete highway, seriously injuring him. He released his hold on the animals when he became unconscious. The horses ran quite a distance, but were caught by linemen at work on the lines on the Haystack road

The linemen assisted Mr. Walls. The owner of the car which caused the accident, who is an Oakland man, stopped and offered to take Mr. Walls to a hospital but he preferred to be removed to his home, nearby, where medical aid was summoned. Dr. Anderson, who was called, found that one of his legs was badly injured, but not broken. One finger on the right hand was broken, his shoulder was sprained and his back injured. He is not able to turn in bed and is badly bruised. Walls is suffering greatly from the shock and injuries, but the attending physician says that he will suffer no ill results, but will be laid up for some time.—Petaluma Courier

S. F. RESTAURANT MAN AND FAMILY COME FOR VISIT

Anton Matli and family, including his 13-months-old son Albert, have been up from San Francisco visiting friends and relatives in the Sonoma and Napa valleys. Mrs. Matli's folks, the Scoligo family, are well known residents of the other side of the mountains She is also a cousin of Theodore Keiser.

Mr. Matti is the well-known restaurant man of the metropolis, being principal owner of 'Louis' Restaurant, Market and Sansome streets. It is one of the best places to eat in San Francisco.

Mrs Robert Carter of Minneapolis has been visiting at the Neal Dodge home The Robert Carters are recent purchasers of the Hall ranch, together with Mrs. Gardner, buying out the interest of Neal Dodge and his brother. The Carters will come to the valley to reside. Mr. and Mrs. Neal Dodge will remain until they make other plans.

O. R. Rufus made a trip to San Francisco this week to look into the market condition of fruit. Mr. Rufus is one of Sonoma's successful growers.

E. E. Smith, prominent Odd Fellow and builder of San Francisco, is spending a few weeks here. He formerly resided at Kenwood.

Jack Valente, well-known San Francisco taxicab man, was in Sonoma this week enjoying our nice warm weather.

TORRENS SYSTEM ON THE TOBOGGAN DECLARES "FINANCIAL NEWS"

In view of the recent interest stirred up in this locality for the Torrens system of registration of land titles, the following excerpt from an article in the Financial News of May 7th, this year, is of particular moment. The article, in its opening paragraph, gives figures showing that since 1914 when the Torrens system was first inaugurated, the applicants for registration under that act has dwindled in Los Angeles county alone from 435 in four months of 1919 to 61 in the four months of 1921.

"What are the reasons for the collapse of this much touted system of land registration?

"Primarily there was no demand for the Torrens system by property owners There are no Torrens registrations in fifty of the counties of California In those counties where there is any appreciable number of registrations, the Torrens activity can only be traced to attorneys who had little if any legitimate practice and who turned to the Torrens system as a get-rich-quick scheme. These Torrens attorneys, through paid solicitors and other unethical practices, induced property owners to perpetually incumber their land titles with this foreign system of land registration.

"For the property owner who has a clear title to his land, the Torrens system can offer nothing. For the property owner who has a bad title, and knows it, the laws of California afford other and safe means of quieting his title, if it should be quieted.

"After a long and wearisome delay, often exceeding one year, a Torrens certificate is issued to a property owner, who finds to his regret that it covers twice as much property as he actually owns. The Torrens system has presented him with all or part of his neighbor's property—and further court proceedings.

"Other neighbors who have believed the dulcet and honeyed words of the Torrens solicitors find that the same Torrens attorneys have procured for them Torrens certificates which cover the same property. They are still trying to figure out who owns the land, because the Torrens law tells them that both certificates are "final and conclusive."

"Owners of land adjoining that being registered under the Torrens system have not escaped the dangerous workings of that system. Without having received any notice whatsoever of the Torrens proceedings, these owners later discovered that their titles, which had always been clear and marketable, were either clouded by the Torrens proceeding or that the title to a part or all of their property had been given, without their knowledge or consent, to the Torrens applicant In the face of such facts, the Torrens owner cannot hope to avoid expensive litigation.

"The Torrens system destroys the free and voluntary handling of one's property. Holders of Torrens certificates, supposed to be final and conclusive, have been summoned into court in order that the description of their property might be changed to comply with the latest models. Supplemental Torrens decrees have been issued, apparently without notice to the interested parties, changing the original decree by taking land away from one Torrens owner and giving it to another, who did not claim and who had no right of any kind in the land so given to him. Without the knowledge of the Torrens owners, incumbrances have been placed on their property which were never created or imposed by them, or any previous owner of the land. Instead of quieting titles, the Torrens system does more than any other known agency to disturb and rile up titles that need no quieting.

"Such conditions as these are responsible for the collapse of the Torrens system."

Farmers Favor Bonds for New High School

The following resolution was unanmously carried by the Sonoma Farm Center:

Resolved, That the Sonoma Farm Center heartily endorses the proposed bond issue for a new high school building. We believe the present building to be too small, inadequate, antiquated and inefficient to serve the purpose for which it was intended. A new high school is a necessity and will be a splendid asset in the development of Sonoma valley.

Resolved, That each member of the farm Center boost for this proposed bond issue and the secretary be instructed to give this resolution the widest possible publicity

Victor Clements is to attend summer school in Berkeley.

Gottfried Nenpfer and wife of San Francisco have bought a place between Caliente and Fetters. Mr. Nenpfer, who is a brother-in-law of M Leixner, will conduct a shoe repairing shop there

Misses Lizzie and Mary Freideger of San Francisco are spending thier vacation with their sister,, Mrs. Tony Cereghino,at her pretty bungalow on Second street east.

Your Speed the Sharples Speed

Every member of the family turns the separator crank at a different rate. Your present separator loses a lot of cream when the speed drops below normal. This loss amounts to more than you realize.

No matter who turns the crank, fast or slow,

THE NEW SHARPLES SUCTION-FEED

Separator gets *all the cream all the time.* The bowl draws in just enough milk to insure clean skimming. More cream means more money—a new profit without added expense.

The Suction-feed has many other important advantages. The cream is always of the exact thickness desired. The capacity increases with the speed. The large supply can is but knee-high—easy to fill.

The bowl has only three parts and no disks. There's nothing that's heavy, clumsy or fussy to wash.

We want you to see this superb new machine. Come in and let us show you what it will do.

Ford
THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3½-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

DEATH FOLLOWS FALL FROM FATHER'S TRUCK

Little Howard Beiser Meets Sad End As Result of Accident at Sonoma Vista.

Howard Beiser, little 5-year-old son of an expressman at Sonoma Vista, fell from the running board of his father's auto truck Saturday and on Monday died as a result of internal injuries. It is believed that the car passed over his body, although at the time of the accident it was not known just how badly the child was hurt. Both Doctors Hays and Thomson were summoned to try to save the little fellow's life, but internal hemorrhages set in and the little boy passed away. Grief-stricken parents mourn his untimely death.

Building at the Springs

M. Y. Hansen, the contractor, is building a garage for T. Brosnahan at Boyes, adjoining the Getchell sanitarium Mr. Hansen is also building a home for Capt. Nelson.

SCHOOL BOND ELECTION NOTICE

Notice is hereby given to the qualified electors of Sonoma Valley Union High School District of the County of Sonoma, State of California, that in accordance with the provisions of the Political Code of the State of California, an election will be held on the 5th day of July, 1921, at the High School, in said District, between the hours of 8 o'clock A. M. and 6 o'clock P. M., during which period and between which hours the polls shall remain open, at which election the question of issuing and selling bonds of said district to the amount of One Hundred and Fifteen Thousand ($115,000) Dollars, for the purpose of raising money for purchasing high school lots, for building high school buildings, for insuring high school buildings, for supplying high school buildings with furniture and necessary apparatus, and for improving the High school grounds will be voted upon.

The said bonds thereunder to be issued and sold, shall be of the denomination of ONE THOUSAND DOLLARS each, and shall bear interest at the rate of six per cent per annum, payable semi-annually, and shall be numbered from 1 to 115 consecutively, payable as follows:

Bonds Nos. 1 and 2, each for One Thousand Dollars to run one year.

STOLEN GUN WOUNDS THIEF AND LEADS TO ARREST

Retribution came quickly upon John Bartholan, who, after various escapades up north, came to Sonoma valley, stole a Luger revolver and planned to "get away" with a bold bad man's career. While familiarizing himself with the stolen weapon with which he was to begin his career, the gun was accidentally discharged, the bullet penetrating Bartholan's arm and inflicting an ugly wound. Bleeding freely he fled to the creek near Glen Ellen and finally sought aid. Deputy Sheriff Ryan was summoned and the wounded man first told a weird tale of being held up, later confessing that he had shot himself "while cleaning a gun." The gun could not be located, but meanwhile Frank Johnson of Kenwood had reported the theft of his Luger revolver and a sum of money to Sheriff John Boyes.

When Ryan took Bartholan to Santa Rosa, after the wound had been dressed by Dr. Thomson here, it occurred to him that the thief Sheriff Boyes was seeking in the Kenwood robbery was probably the wounded man.

Near the spot where Bartholan wounded himself Ryan found Johnson's gun. A charge of larceny has been placed against Bartholan, who now admits to bad check passing up north, and despite his youth and well-dressed appearance seems to have already had a record, which is being probed by the officers.

In the Matter of the Estate of Ernest Jacobsen, also known as Ernest Jacobsen, Deceased.

Notice is hereby given that Monday, the 27th day of June, A.D. 1921, at 10 o'clock a.m. of said day, and the court room of said Superior Court, in Department Two thereof, in the City of Santa Rosa, County of Sonoma, State of California, is hereby fixed and appointed as the time and place for proving the Will of said Ernest Jacobsen, also known as Ernest Jacobson, deceased; and for the hearing by the Court of the application of Emma Jacobsen for the issuance to her of Letters of Administration with Will Annexed thereon.

Dated June 6th, A.D. 1921.

(Seal) W. W. FELT, JR., County Clerk.

By John Burroughs, Deputy Clerk.

R. A. Poppe, Esp., Attorney for Petitioner.

Mr. and Mrs. Nathan Cantor of San Francisco are spending their vacation at Schaeffers resort, Boyes Springs.

Mrs. Meyers of Ocean View, Southern California, who has been visiting at the Dobbel home, returned home this week. Mrs. Meyers is 81 years of age, but travels alone and is a very active and interesting old lady. She was a friend of Mrs. Dobbel's mother.

Mr. and Mrs. Charles Cheney have been down from Reno, Nevada, visiting at the Wm. Durant home and in Oakland.

Arthur Ritz and Donald Prestwood went up to Guerneville on their motor bike this week for a few days' outing.

Coroner Phillips and wife and Coroner Leland of San Francisco, with some of his office force, motored to Sonoma Wednesday night and took dinner at the Plaza Restaurant.

Miss Tamara Lawb is giving a party this evening at the Woman's club house.

Ship and sail under the Stars and Stripes to all parts of the world

THERE was a long period when it was not true, but today it is proudly true once more—trade and passenger routes are so established that you can ship your goods, or you can sail, to any part of the world under the Stars and Stripes.

The program of routes is being carried out with an eye to the future as well as present needs of American exporters and importers and all American prosperity. See that the ships you use are owned and operated by American citizens or by the U.S. Shipping Board.

Operators of Passenger Services

Admiral Line, 17 State Street, New York, N. Y.
Matson Navigation Company, 26 So. Gay Street, Baltimore, Md.
Munson Steam Ship Line, 82 Beaver Street, New York, N. Y.
New York and Porto Rico S. S. Co., 11 Broadway, New York, N. Y.
Pacific Mail S. S. Co., 45 Broadway, New York, N. Y.
U. S. Mail S. S. Co., 45 Broadway, New York, N. Y.
Ward Line, (New York and Cuba Mail S. S. Co.) Foot of Wall Street, New York, N. Y.

Free use of Shipping Board films

Use of Shipping Board motion picture films, four reels, free on request of any mayor, pastor, postmaster, or organization. A great educational picture of ships and the sea. Write for information to H. Laue, Director Information Bureau, Room 911, 1319 "F" Street, N. W., Washington, D. C.

SHIPS FOR SALE
(To American citizens only)
Steel steamers, both oil and coal burners. Also wood steamers, wood hulls and ocean-going tugs. Further information obtained by request.

For sailings of passenger and freight ships to all parts of the world and all other information, write any of the above lines or

WASHINGTON, D.C.

Through the heart of the Cascades

The Gasoline of Quality

ON the motor road from Seattle to Tacoma and the East, the motorist passes through many points of unusual scenic interest.

Lake Keechelus is one of these. It is over six miles in length,—having the appearance of a great river, and is situated at an elevation of 3,000 feet in the very heart of the Cascade range.

Motorists will find this region a most enchanting country dotted with beautiful lakes and mountains and huge fir, spruce and cedar trees measuring in some instances six to eight feet in diameter.

And all along the route the motorist can get Red Crown Gasoline—the all-refinery motor fuel that insures quick starting, rapid acceleration and more power.

Look for the Red Crown sign.

Steve Anazitos to Sail for Greece

Steve Anazitos, for many years the proprietor of Steve's Grill at Boyes Springs, has sold out and will take a trip to his native land, Greece. He sails from New York very shortly.

The business at the springs has been sold to Sam and Barney, who have renovated the restaurant completely and will conduct an up-to-date place with a big menu.

Miss Marion Stone, who has been teaching at Huichica a few weeks, left for Loomis last Saturday.

Arthur Sycrowsky, former Sonoma boy, has been up from Berkeley for a visit to old friends.

Mrs. M. Gilbert of Buena Vista, who has been taking medical treatmen in San Francisco, is now much improved in health.

State of Ohio, City of Toledo, Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON, Notary Public.

THE SONOMA INDEX-TRIBUNE

SONOMA CALIFORNIA, JUNE 25, 1921

VINEBURG NEWS

The warm spell the fore part of this week, more so on Tuesday, was quite a surprise to many, but that is nothing, Old Sol has to do a stunt once in a while.

Mrs. Grover Rubke and pretty little daughters, Thelma and Margaret, are the guests of friends in the metropolis this week. Enjoy yourselves.

Walter Murphy was a visitor in these parts this week. The popular Index-Tribune editor says that when he is appointed postmaster-general he will appoint Jim Small postmaster at Wingo, as Jim would be the "wrong man in the right place."

Mr. and Mrs. Finck of Oakland are the guests of Mr and Mrs Louis Martin. Mr. Finck is a leading merchant of Oakland and always spends a portion of his summer vacation in Sonoma valley.

We find on our desk a note from a young lady we don't know, in which she says, "Easy, publish, please:

"A psalm singer once was Bill Hughes
Who always sang songs against booze,
But he never would shrink
When you would ask him to drink,
And he was never known to refuse.

"A brave Fire Chief was George Cause.
At danger he never would pause.
It was his desire to 'Fight Demon Fire,'
And his deeds won for him great applause.

Mr. and Mrs. August Figone of San Francisco, and family, are the guests of Mr. and Mrs. John Batto.

Sonoma's fire chief, Old Boy "Jep,"
So quick but full of "pep,"
When he'd hear the fire bell ring,
To the engine he'd spring
And the fire was soon out, you bet.

"Yours truly, Jessie Justice, Baxterville"

Jessie, you are all right, believe me.

Mr. John H. Sears and Mrs. Dora Pfughaupt of Oakland, married on Tuesday, June 2st, are spending a few days of their honeymoon as the guests of Mr. and Mrs. Louis Martin. Mr. Sears is a prominent member of the Oakland police department.

EASY JIM.

THREE FIRE ENGINES FIGHT MENACING FLAMES AT SPRINGS

A fire said to have had its origin from children playing with matches started a conflagration on the former Capt. Boyes homestead at the springs last Monday. It swept toward the Duffy Lewis place and then on toward the Oaks. The fire department of Boyes did excellent work, confining the fire to a circle and fighting it from two directions. Chief Causes' contention that two chemicals were necessary proved true, and with one engine stationed near the springs and the other on the Farrell place effective work was done and the flames conquered. Sonoma's engine went to the aid of the fire fighters and did its share of good work also.

$15.000 Cash Estate Settled by Public Administrator

Public Administrator Frank Phillips is just about to close the estate of the late Amanda Johnson, who died leaving $15,000 in cash. Phillips has been acting for relatives in the east and expects to distribute the money, which he has kept on deposit in the Sonoma Valley Bank, about the first of the month. It is the policy of this official to leave all moneys and business possible in Sonoma and communities where estates originate rather than to take the business to the county seat or elsewhere. It is a splendid spirit and policy and could will be emulated by other county officials.

Mrs. Molly Johnson Hostess at Rebekahs Thursday

After the business meeting of Verdant Degree Rebekahs Thursday night the usual social time took place and Mrs. Molly Johnson acted as hostess. Mrs. Johnson proved a past mistress of beautiful table decoration and good eats Using a pink color scheme and asparagus fern the tables were beautifully arranged, and pale pink roses of crepe paper filled with mints added a charming touch. Ice cream, fruit punch, delicious cakes and coffee were dispensed.

There were congratulations to Miss Dorothy Bancroft on her birthday and a welcome given to Mrs. Colquhaun, lately returned from Scotland.

Miss Amy Rowe, former member of the lodge who is here visiting from San Francisco, was also given a hearty welcome.

Dancing and general sociability completed the evening.

Sister of Mrs. Quartaroli Dies Suddenly in San Francisco

Mrs. Matilda Balletti Boreo, sister of Mrs. L. Quartaroli, died suddenly in San Francisco of heart failure one day this week Her husband thought she was sleeping, but when he called and failed to arouse her suddenly realized that she had breathed her last. Physicians summoned to her home hastily were unable to give any aid whatsoever, death having claimed the wife and mother some time before.

Mrs. Boreo was raised in this vicinity and formerly went to school here She was the wife of Wm. Boreo, loving mother of Raymond Boreo and leaves several brothers and sisters to mourn her, among the latter being Mrs. Quartaroli of the El Dorado hotel.

Funeral services and interment were at Napa on Thursday.

LOCAL ANGLERS MOTORED TO INDEPENDENCE LAKE

A party of Sonoma valley sportsmen motored to Independence Lake, in the Sierras, this week for a fishing trip. The trip was made in Edgar Clements new Cole eight. Besides Clements the party consisted of Gus Seipp. Ed Palmer and Joe Kiser and son.

Sonoma Friends Gave Bridal Couple Good Send-Off

A number of friends of Miss Bessie Venton and Wesley Bish followed the young couple to Napa last Sunday afternoon and after the ceremony by Rev Hawley, which united the happy pair at 3 o'clock, gave them a hearty send-off with the traditional rice, old shoes and "just married" placards, with which they decorated the car of the newlyweds. Among the friends who went over were Misses Rambo, Volquardsen, Bancroft and Messrs. Rambo, Journau and Meryl Bish.

A dinner at Madrone preceded the wedding of Miss Venton and Mr Bish, who is a nephew of L M Bish of the big vineyard property above Caliente.

Certain-teed Covers More Surface Per Gallon

YOU need less Certain-teed to cover a given area than you do ordinary paints and varnishes, because the ingredients in Certain-teed are highest quality, are properly proportioned, and are thoroughly ground and mixed by machinery that makes no mistakes.

These things also account for the fact that Certain-teed has greater hiding power, retains its color and lasts longer than ordinary paint products.

Certain-teed is always highest quality. It is produced by a great concern which is everywhere recognized as a maker of quality products. The name means, "*Certain*ty of Quality—Guaran*teed* Satisfaction."

Your Spring painting will be more satisfactory if you let us provide this highest quality paint. Certain-teed led in price reductions. We are now selling this paint at pre-war prices.

FRANK BURRIS, President JESSE BURRIS, Secretary

J. J. Dunbar Writes of His Trip to Canada

J. J. Dunbar writes from British Columbia on June 15th telling something of his travels since going north. He had a beautiful trip up the coast on the steamer President, which, despite a small crew on account of the seamen's strike, made excellent time. The first port was Victoria and the travelers noticed the prevalence of folks there speaking with a decided English accent. He describes it as a very English place. The city of Vancouver proved to be a very up-to-date place and more like American cities. It has a prosperous appearance, says Mr. Dunbar, and is beautifully situated. "Seattle to Victoria and then to Vancouver by steamer is a lovely trip," declares the well-known plumber. After leaving Victoria much beautiful mountain country, much of it still outlined with snow, proved very interesting. The streams and rivers were all picturesque and the Sonomans finally arrived in Calgary, Province of Alberta, a city of 60,000 people with a barren looking surrounding. There is an oil boom in the vicinity. After leaving the main line railroad at Calgary, Mr. Dunbar's troubles commenced. He wished to visit friends and relatives off the main line and got a sample of Dominion jerk-lines. The waits made the travelers wish for a little speed in an American jitney. The country around Alberta looks fine, but they need more rain in all the farming area. After a trip south on more slow railroads to Saskatchewan, the Dunbars will again take the main line to Ontario by the lake route, and passing through the city of Winnepeg, the largest city of Western Canada, will complete the first link of their journey. They send respects to all their Sonoma friends.

Card of Thanks

To Chief Valente of the Sonoma fire department and his efficient crew, on behalf of the residents of Boyes Springs and the Boyes Springs Volunteer Fire Department and myself, I wish to extend thanks for the ready response and aid at the fire here last Monday. Signed:

CHIEF. GEO. CAUSE.
Boyes Volunteer Fire Department.

$9000 Service Station

S. Codutti has been awarded a contract to build a $9000 service station between Napa and Cordelia. The big contract is to be completed by the Sonoma builder in seventy-five days.

MISS COOK RETIRES AFTER LONG SERVICE AS TEACHER

Miss Minnie Cook, who has the honor of being the pioneer educator of Sonoma valley, having taught continously here for almost half a century, retires the coming term from the Sonoma grammar school primary department Her place will be taken by Miss Alice Young of Yountville district.

Miss Cook endeared herself to hundreds of children who have passed through her classes and she has followed their advancement and progress with the most sincere interest. She was a painstaking, conscientious teacher throughout the years of service devoted to the training of the little folks of Sonoma and other valley districts where she taught. Endowed with unusual talent for elocution and dramatics Miss Cook has contributed much to the success of many splendid school entertainments.

The veteran educator retires with full pension rights under the state law and will enjoy a long-needed rest.

A sixth teacher will be employed by the grammar school trustees to take care of the increased attendance next term. The teaching staff now comprises J. F. Prestwood, principal, Misses Cooper, Burchard, McConochie, Murphy, Young and the new teacher yet to be chosen.

Mrs. H. C. Whiting, widow of the late H. C. Whiting, one of the pioneer N. W. P. railroad officials, is here for the summer at her Woodleaf Park bungalow. Mrs. Whiting's country home "Rocky Haven" is one of the unique places of the valley.

Word comes from Europe that Miss Eugenie Froment who is traveling abroad with her parents, has been quite ill. Many Sonoma friends await word of her complete recovery. The Froments, after traveling in Algeria and Southern France, will return to Paris for a long stay with Mrs. Froment's sister, Mrs. E. Legallet.

Mrs. Ben Weed, Mrs. R. M. Sims and Miss Leola Sims, also Mrs. Chas. Bundschu came up from their homes about the bay to be present at the graduation of Miss Anna Lou Dresel from the High School here Friday of last week.

Mrs. Carles Emparan of Oakland witnessed the graduation of her niece Celia Thomson from the Sonoma High last week

Mr. and Mrs. L. Volquardsen and little 7-months old daughter have been visiting relatives here, Mrs. Volquardsen coming up for the gradation of her sister, Miss Marguerite Helberg.

Mrs. Arbogast of San Francisco and Mrs. Fritz Helberg were here for the commencement exercises.

Elmer Owens of Anaheim is greeting old friends at his new headquarters, Parente's Tavern, at Verano.

Mrs. Helen Schell of San Francisco was here to see her nephew, Fred Schell, graduate Friday night, the 17th.

Mrs H. Nichol, a niece of Mrs. Colquhoun, accompanied her from Scotland upon her return here and will make her home in the Valley of the Moon.

News comes from Montana that the Wm. Rings, who formerly resided at Schellville, are the parents of a baby girl. Mrs. Ring's folks live in Montana and after a short residence here she returned to the big ranch owned by her folks there and was later joined by Mr. Ring. They expect to remain there permanently.

Mrs. Hazel Brownscomb and three children, of San Joaquin county, are here on a visit to Mrs. Brownscomb's folks, the R. B. Thomas family.

Wm. Helberg Jr., representative of the Earl Fruit company in this district, made a business trip to Sacramento Tuesday.

Leona and Madeline Schultz, of Oakland, talented granddaughters of W. W. Carter, are visiting here. The girls are musicians and drummers who have made a success professionally. The saxophone and drums are their specialty.

The thermometer registered 106 degrees here Tuesday morning.

S. Shocken has leased his store near the old mission to A Minotti, formerly of Duhrng's, who will conduct an up-to-date grocery store on that side of town.

Mrs. Clements of Edendale will join the party of Sonomans going to Alaska this summer for a few weeks' outing.

WHITMORE PROMISES TEN MILES OF PAVING

Black Point Cut-Off Improvement to Begin at Ignacio Shortly Declares State Highway Commissioner.

The Napa Register gives the news that ten miles of Black Point highway will be built in the very near future During the week State Highway Commissioner Charles A Whitmore, accompanied by Russell H. Stainaker, an assistant highway engineer, visited Napa to explain to the officials of the Napa Chamber of Commerce the exact situation between Napa and Sausalito, that the citizens of Napa, Sonoma and Marin counties, had long hoped to see completed

Mr. Whitmore stated that the Black Point cut-off cost the sum of $378.00, some $70,000 in excess of the appropriation allotted, out of previous bond issues, and that out of the last bond issue the sum of $400,000 additional was set aside for it. He said that with this money ten miles of the route, extending from Ignacio north to Fairville, would be built immediately; that within a few weeks the commission would advertise for bids for the work and would let a contract which should insure the building of the ten miles before the winter rains set in. He said that the remainder of the road would be gravelled and put in first-class condition for travel and would be kept so pending such time as the commission, either by another bond issue or by legislation, could raise the funds with which to build it.

Mr. Whitmore assured the Napaites that the commission would see to it that the Black Point cut-off project would receive its full share of funds available, and that the commis ion would also put that part of the road not actually paved, in first-class condition.

The various organizations of Sonoma valley have besieged the commissioners for the past six weeks to pave the Black Point road. Sonoma valley and Napa county are being sorely set back and damaged by the disadvantage of the rough dirt road branching from the paved main highway at Ignacio. Considering the appropriations given by Napa and Sonoma counties on the Black Point bridge and the great interest in opening up this outlet from the Sacramento valley this locality has a just claim to the improvement sought and both will welcome the laying of pavement by the commission at the earliest possible moment.

The Will Appleton family of Berkeley and the Horace Appleton's of Stockton will spend the Fourth with their Sonoma relatives.
